

2 April 1974

MEMORANDUM FOR THE RECORD

SUBJECT: Project Proposal for the Key Intelligence Questions
(KIQ) Project for DCI/IC

A project proposal is being worked on for the KIQ project. Members of the IC Staff have just about completed their analysis of the information needs of this project -- at least for the first phase which covers through September 1974.

The proposal has a target completion date of 10 Apr 1974; and at that time, assuming the proposal is accepted, work can begin on the first phase of automating the KIQ Project.
